## World-class LED lighting

Focuses on offering appropriate lighting for the workplace with low operating cost and a modern yet functional design. Important to remember when choosing light sources, is the user's preferences in strength, color temperature and spread of the lighting.

### Unique colour adjustment

Through the combination of LEDs, light is adjustable for every need. The color temperature is a measure of how cold or warm the light is.

### Best Ergonomics

The broad light spectrum that all Diasonic lamps offer provides a comfortable and natural light.

Easy adjustment of brightness and color temperature.

Charge mobile phone, iPad or other accessories via the USB port.

USB port for charging

### Energy smart LED with timer

Smooth and elegant LED light equipped with a USB charger. Its automatic shut-off feature (30/60 min) allows for environmentally responsible and cost effective usage. Brightness adjustable in 5 settings, with color temperatures available in Work, Reading, Relaxation and Sleep mode.

## Out of the ordinary

The LiftSystem is an integral design creating a more ergonomic working environment without reducing functionality or performance.

Each unit is easy to assemble and features functions that are unique in the market.

*One track - choose the right accessories for the desired function!*

**Unique, Smart & Practical!**

With a centered fixing point in the table, enables mounting of LiftPipe in any position.

LIFTSYSTEM

Store your laptop beneath the desk to save space

## Laptop & CPU holder – LiftLap

A very flexible, brilliant design that stores your laptop horizontally or vertically beneath the desk. Rotational 360°, and can be folded vertically 90° for optimal space-saving. LiftLap can even be supplemented with a LiftSystem rail (click-in) for sliding.

LiftLap is even suitable for medium-sized computers giving you two functions in one in the same holder. You therefore avoid unnecessary costs if you change to another type of computer in the future. Complement with LiftSystem's patented clasp strap (art no. 427-CS06) for stable assembly. Dimension platform 370 x 320 mm, Height collapsed 570 mm

- 431-LU20      **LiftLap, Silver**
- 431-LU20W    **LiftLap, White**
- 431-LU20B    **LiftLap, Black**

LiftSystem track and desk distances, see Accessories, page 14.

Add on a Multi-cradle, so that you can hang on Sopi Waste Sacs or a Waste bin, as seen below. When you lift the LiftLap horizontally upwards, the Multi-cradle keeps a Waste bin or a Sopi Waste Sac in the vertical position.

A holder for both laptop and desktop computers save money when changing computer.

### LiftLap Multi-cradle

- 431-LU22      Silver
- 431-LU22W    White
- 431-LU22B    Black

### Waste bin

- 430-WA31      Silver
- 430-WA31W    Black
- 430-WA31B    White

### LiftSopi Waste Sacs

- 430-SOPI 100 set x 25 off

## LiftUp – Laptop Storage

Design and function at its best. Rotating for best laptop accessibility, with or without docking station. Comes complete with rubber mat. Can also combine with rail (including quick-lock) for sliding accessibility. Measures: WxDxH: 380 x 335 x 115 (73) mm.

431-LU10      **LiftUp**, silver

*Accessories, see bottom of page.*

## LiftSopi Recycling

A rotatable Paper & Recycling system with large capacity. Can be complemented with a LiftSystem Rail for sliding usage. Adjustable wastebin at three fixed levels and a practical waste bag for mixed waste.

A patented "rider" with a set of 25 eco-friendly waste bags that can easily be torn off when needed.  
Volume: Wastepaper basket 7 L, Waste bag 7 L

430-WA30      **LiftSopi Waste Bin & Waste Bag**, silver  
430-WA30W      **LiftSopi Waste Bin & Waste Bag**, white  
430-WA30B      **LiftSopi Waste Bin & Waste Bag**, black

**Waste Bag Sopi**  
Rider with set of 25 bags.  
100 sets / package.  
430-SOPI

**Extra shelf**  
For magazines & sheets of paper  
430-WA12      Silver

**LiftSystem Waste Bin**  
Extra waste bin for sorting  
430-WA31      Silver  
430-WA31W      White  
430-WA31B      Black

Example of assembly with an extra waste bin.

## Accessories for LiftSystem

430-WA11      **LiftSystem rail**, 400 mm  
430-WA13      **LiftSystem rail**, 400 mm  
430-WA16      **LiftSystem rail**, 600 mm  
427-CS08      **Height distance**, 65 mm / pair  
427-CS09      **Height distance**, 100 mm / pair

## LiftFlex – CPU Holder

Gives easy access to both horizontal and vertically placed computers. May for expanded accessibility also be supplemented with Liftsystem sliding track, which means simply take down of the CPU holder on the floor.

Patented strap catch for extremely firm and secure positioning. Fits computers with up to 1500 mm circumference.

427-CS27E **LiftFlex**, silver  
Holds computer 30 mm from desk.

### Accessories

430-WA11 **LiftSystem rail**, 400 mm  
427-WA27 **Multi Module**, silver (add-on below accessories)  
430-SOPI **Waste Bag Sopi**, set 25 x 100 pcs  
430-WA31 **Waste Bin**, silver  
430-WA12 **Shelf**, silver

Multi-module with Waste bin

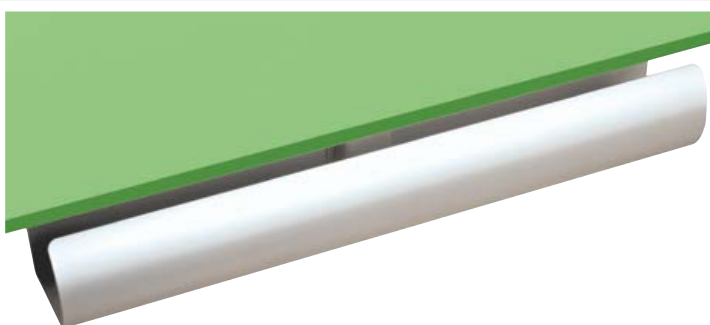

Multi-module with WA12 shelf

## LiftFix – CPU Holder

For fixed mounting of vertical or horizontal computers under the tabletop. A patented design with a unique strap catch that is both elegant and extremely rigid. Max computer circumference: 1500 mm.

427-CS17 **LiftFix**, silver  
Holds computer 60 mm from desk  
427-CS18 **LiftFix**, black  
Holds computer 60 mm from desk

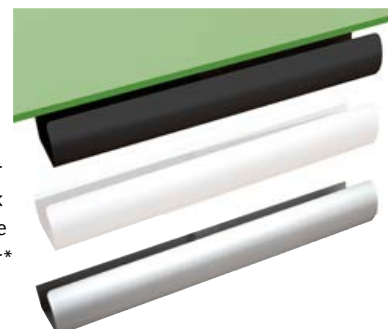

## LiftPipe – Cable Tray

Elegant shape with rounded front. Adapts to all workplaces and desk styles. A clever design with centered fastener for easy assembly. Adjustable to three levels with quick lock. No tools required. The quick lock system ensures easy disassembly and cable access.

429-PI01 **LiftPipe**, 650 mm, silver  
429-PI02 **LiftPipe**, 1050 mm, silver  
429-PI02B **LiftPipe**, 1050 mm, black  
429-PI02W **LiftPipe**, 1050 mm, white  
429-PI03 **LiftPipe**, 1450 mm, silver\*

Centre bracket

\* 2 fastening points of which one is foldable towards the floor

## Premium class!

A large number of models in function and finish meets every need!

Quick mounting for monitor

Cable through desk

### Monitor arm LC50

Elegantly designed gas-spring monitor arm of the absolute best functionality has good arm length and flexibility that allows exact positioning of the monitor above the desktop. Design with an ingenious quick-bracket for monitors and an integrated channel for hidden cable drawing. Arm length: 486 mm, Max load 8 kg.

438-LC50

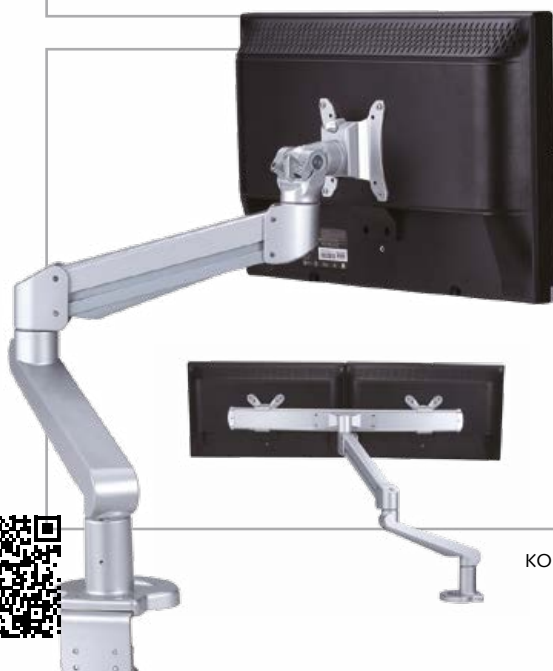

438-LC50W

438-LC50B

**Monitor arm, silver**

**Monitor arm, white**

**Monitor arm, black**

### Monitor arm LC60 Heavy Duty

A new stable monitor arm in well-known design and heavy duty gas lift, which is specially designed for heavy monitors. This model is similar in its basic function and design model LC50, which has become very popular the market! Can also easily be supplemented with Twin Bar for dual mounting monitors.

Armlängd: 570 mm. Belastning 8-19 kg

438-LC60

**Monitorarm, silver**

Accessory:

438-LC62

**Twin bar Monitor Bridge**

Monitor bracket maximum distance c/c 690 mm

## Duo Monitor Bridge

For installation of dual monitors. An additional allround bracket suitable for all monitor arms to mount Vesa 100. Practical wedge locking of the monitor brackets. Maximum distance, center monitor clamps c/c 685 mm.

438-LB15 **Duo Monitor bridge**, Vesa 75/100, silver  
438-LB15W **Duo Monitor bridge**, Vesa 75/100, white

## Flexible and steady

A very affordable monitor arm that has become popular for both its clean and simple design. It can be supplemented by Duo Monitor Bridge, due to the very stable design. Length: 465 mm Maximum load: 14 kg

438-LC15 **Monitor arm**, silver  
438-LC15W **Monitor arm**, white

Slim edge mount for elegant assembly in the desktop / max 27 mm

## Monitorarm Premium krom

Designed for functionality and performance at its best. An elegant monitor arm with 2 sections/ 4 joints for maximum flexibility. Includes "Quick-lock", a vertically adjustable fastener. Arm length 527 mm. Max load 15 kg.

438-LA6C **Monitor arm Premium**, chrome

## Monitor arm "Hospital"

An unique monitor support with exceptional big range. Built-in gas spring and six joints gives unlimited possibilities in most environments. Delivered with wall fastener. Arm length: 1725 mm. Colour: Light grey.

438-HA10 **Monitor arm HA10**, 1-6 kg  
438-HA25 **Monitor arm HA25**, 6-12 kg  
Accessory: 438-HA17 **Ceiling Mount Kit**

<--- More info of all products on this page directly in your mobile device

## Monitor arm LA51

Praised monitor support with high stability. Four joints with flexibility gives correct position of the monitor. Includes "Quick-lock", a vertically adjustable fastener for added security. Arm length: 628 mm. Maximum load 8 kg. Colour: Silver.

438-LA51 **Monitor arm**, Silver

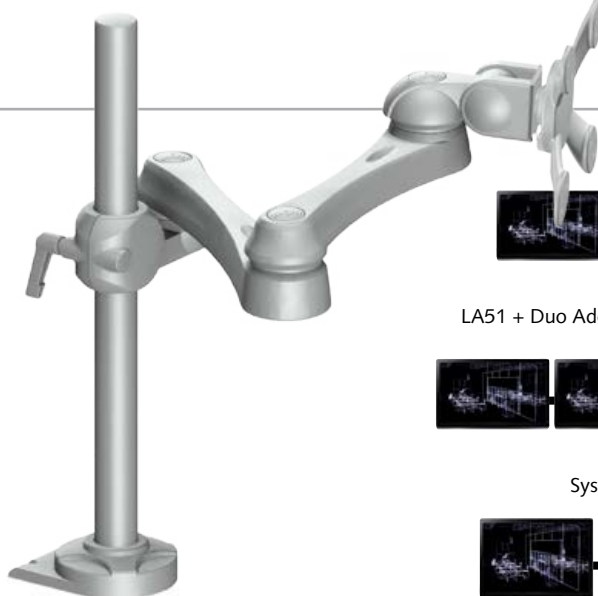

Add 438-LA51 with Duo-arm for assembly of two monitors.

## Monitor Hood

Light shining on the monitor screen is often a problem, especially during the summer and late winter when the sunshine is strong. TopHat prevents un-authorized view as well as reflections from the screen.

652-1424 **TopHat Monitor Hood**, silver  
Min width 310 mm, Max width 530 mm

## Grommet bracket

**Accessory:** Fastener for cable feed through. Fits all, unless otherwise noted.

438-502A **Grommet bracket**

## Wall mounts

438-LA65  
1 section with 4 joints, adjustable 180°/180°. Vesa 75/100 with wedge lock for added security. Max load 20 kg. Color: Silver

More information, see [www.kondator.se](http://www.kondator.se)

## TermiFix Work Station

A rail system for permanent wall assembly, consisting of two rail consoles.

The upper (*Termifix 1*) is a complete work station with keyboard platform and monitor bracket. The lower (*Termifix 2*) rail consoles with an adjustable CPU holder. Respective detail can be adjusted vertically to the height required.

### 438-KA1C TermiFix 1

Wall rail, monitor bracket Vesa 75/100, keyboard holder with mouse table.  
Rail length 820 mm, width 116 mm.

### 438-CS15 TermiFix 2

Complete wall rail with CPU-holder.  
CPU-holder: Adjustable width 150-250 mm  
Rail length 820 mm, width 116 mm.

### Stable rail

A robust rail system with adjustable sled resulting in a very flexible system for wall-mounted work stations.

### Practical

Collapsible platform with integrated wrist support for a keyboard and mouse.

## Monitor rod for shops and offices

Suits most needs, frees up space and is flexible in its simplicity and functionality. Often a natural choice in "tight quarters" in both the office or factory and at cashier desks in the retail. Very easy to assemble and both the height and tilt are adjustable. Max load 15 kg.

438-PA10 **Monitor Rod, 600 mm**

438-PA11 **Monitor Rod, 420 mm**

### Accessories

438-LA37 **Monitor bracket, Vesa 75 & 100**

438-KA1A **Platform, for keyboard & Mouse**

## Termobilen PC/Work Cart

A mobile work station you can set up anywhere! Extremely useful within the manufacturing, care & research industry, as well as other sectors where high mobility and flexibility are required. Comprised of an extremely stable tripod with a full height (185 cm) and wheels with an incorporated braking system. The computer fits securely onto the main frame of the work station with a patented locking strap. Includes slotted monitor and keyboard holders, with wrist rests and mouse tables. Both are adjustable to ensure a correct and comfortable working position.

### 438-PA21 PC/Work Cart

Roller tripod with platform for a keyboard and mouse, a CPU-holder and Monitor bracket VESA 75/100.

## Aluminium Cable Duct

Elegant floor cable duct with removable lid for easy laying of cables. Its robust aluminium design can withstand high weights, whether a person or office cart, without being an obstruction.

429-2500 **Cable Duct, 2500 mm**

Custom length on request.

### Soft floor cable tube

A highly robust and durable cable cover. Its flat design minimizes obstruction whilst its flexible material allow for easy adjustments. **Delivered complete with 2 end pieces as well as an extension piece.** Width 150 mm.

429-S30BM	<b>Cable tube soft, gray, 3000 mm</b>
429-SJOBM	<b>Extension piece</b> for connection of floor cable tube
429-SECBM	<b>End-piece, pair</b>

### QuickClick – CPU Holder

Elegant design for vertical assembly of small, medium and slim computers. QuickClick is adjusted very easily using the quick-lock "Ratchet Control", for absolutely secure locking.

427-1203	<b>QuickClick, silver</b>
427-1203W	<b>QuickClick, white</b>
427-1203B	<b>QuickClick, black</b>

Dimensions: Width min/max 40-125 / (+60) 185 mm,  
Height min/max 225-435 mm.

A LiftSystem Sled (rotational 360°) and LiftSystem track can also be added on for sliding purposes.

Accessories:

427-WA15	<b>LiftSystem Sleigh, coupling bolt included</b>
430-WA11	<b>LiftSystem Rail, length 400 mm</b>

Expansion track  
+60 mm, included.

One easy press on the quick-lock "Ratchet Control" will adjust the width quickly and safely.

### CPU Carrier

A good CPU carrier should have a low centre of gravity and be fitted with wheels. This facilitates cleaning work as moving is done without heavy lifting.

**427-CS02G Caddy CPU Carrier**  
Caddy holds the computer vertically, just off the floor. A robust design with adjustable width. Delivered with lockable wheels and slip-free surfaces for the computer, for added equipment security. Adjustable width 80-252 mm.

## Sfinx Laptop Station

Sfinx Monitor stand has an integrated platform with space for a docking station to laptop computers, taking advantage of the same space as the normal monitor, while allowing vertical adjustment of your monitor to the desired level.

The laptop computer is easily connected to the docking station on the foldable platform, which then is raised to the vertical position and the pivoting monitor stand is turned 180° for immediate use.

Never before has anything as practical and space-saving been available on the market for storing laptop computers – Worldwide!

438-5050

### Sfinx Monitor- & Laptop station

Detached, including vertical slider for height adjustment of the monitor.

The idea of integrating a monitor stand with a foldable platform with space for docking station and laptop is an absolutely unique design which is both functional and it saves space on the desktop.

Sfinx is a unique, patented innovation!

## "Opportunity makes the thief"

A lockable laptop box with integrated wrist support and cable entry at the rear panel. A robust, space-saving box which provides excellent theft-protection.

435-ND01 **Safety Laptop box**, cylinder lock included  
Inner dimensions: width 370, depth 350, height 45 mm

## Phoenix LapTop Arm

Phoenix Laptop-Arm of elegant design and the best performance gives functionality far above the usual. It is gas spring balanced with unique "auto-locking" giving great flexibility while assuring the desired level for the arm. The level of the arm is released in a second by a simple touch and a new level is adjusted through auto-locking.

Phoenix has integrated cable channels and a desk attachment for drawing cables through the desktop. Pivot platform with handle. Adjustable width of 250-370 mm.

438-911N **Phoenix LapTop Arm**, silver

### Accessories

438-902A **Feed-through bracket** in the middle of the desktop

A practical Laptop tripod, which raises the monitor of laptop computers to a comfortable working height. All that is required is an extra keyboard and a mouse for improved ergonomics.

## Laptop stand Turn-O-Flex

Turn-O-Flex is a portable support for notebooks which fits in your computer case. Adjustable to six alternative positions for the desired angle and work height; it also has a unique, turntable (360°) under the support. Why not add an external keyboard as well for an ergonomic work position offering good comfort?

426-5710 **Turn-O-Flex**

Made in aluminium. Dimensions: Width 305 mm, length 240 mm.

Easy adjustable in angle.

Delivered complete with stretch cover.

Turntable under the base plate for stable positioning at the angle desired.

## Safety Vertical Box

Protects your Laptop during unguarded moments. An unique, patented lockable Laptop box for assembly under the desktop. Suits most existing laptop docking stations on the market.

The lockable side piece can be opened to a horizontal position for easy docking. Vertical Vertical Box can also be complemented with a LiftSystem Rail and Sled for practical glide and rotational (360°) use under the work table.

428-LU50 **Safety Vertical Box**,  
incl. cylinder lock

### Accessories:

430-WA11

**LiftSystem Rail**, length 400 mm

427-WA10

**LiftSystem Sleigh**

428-WA11HL

**Padlock** to the system rail

## Ergoslider Premium

### Premium Class!

Ergoslider® Premium is the **new alternative** for a comfortable and natural position, which reduces tension in daily work. With a unique and patented 3D panel has Ergoslider Premium precise control of the cursor, which provides a "close to the right feeling."

Centered seven buttons functions and generous relief wrist support in extremely low design provides a comfort beyond ordinary. In short ... **Only the best is good enough!**

440-EP8B

**Ergoslider Premium, Black**

### Accessories

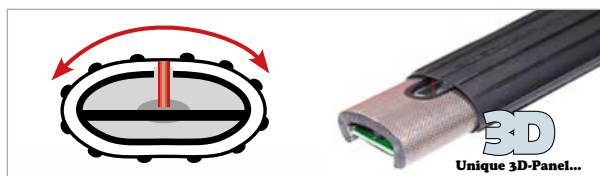

440-E816

**Form Adapted Arm Support**

### Unique patented 3D Panel!

Ergoslider Premium introduces 3D panel, which provides a user experience like no other. A hidden internal sensor protects the panel from dirt and dust, and is synchronized with the movements in three dimensions. The main advantage for the user is that the 3D panel is easily accessible at your fingertips!

440-E816

### Form adapted Arm Support Ergoslider Premium

A fully integrated arm rest that provides a proximity to the keyboard for optimal support

Extremely low design, only 23 mm by height.

*..it's kind of magic!*

## Ergoslider Plus+

### World Class Ergonomics

Ergoslider Plus+ has a low and stylish design. This in order to give the user absolute comfort, a preventative natural position, without tension at daily work with the computer.

All key functions are centered on the centered panel, for natural use of your keyboard. The pleasantly soft wrist support gives a nice rest. This is removable and can, if necessary, supplemented with a form adapted support, or replaced entirely with a wider extended wrist support.

440-E801 **Ergoslider Plus+, Black**

440-E803 **Ergoslider Plus+, Silver**

#### Accessories

440-EE01 **Ergoslider Extended, Silver**

440-E815 **Form Adapted Arm Support**

### Unique roller bar

Easy cleaning of the chute thanks to removable roller bar prevents dust and dirt on optical sensor.

440-EE01

440-E815

#### Form adapted arm support Ergoslider Plus +

Is adapted for deep dock in forearm support, giving abbreviated distance to the keyboard for extended comfort.

## Relaxing in every way

### 455-2415 Mouse Pad Comfort Gel

Large work surface for the computer mouse and comfortable wrist support on EnergyGel. Sits firmly on the table without irritating sliding. Colour: Anthracite gray lycra. Dimensions: width 225 depth 275 height 20 mm.

### 455-2416 Wrist Support, Keyboard Comfort Gel

Soft and comfortable wrist support filled with high quality EnergyGel. Good support for the wrist without obstructing hand movement. Sits still even on sloping tables. Colour: Anthracite gray lycra. Dimensions: width 480 depth 80 height 20 mm.

## Relieving sensation

Wow Grip Mouse Delux puts your hand in a natural and restful position like a "handshake". New design with textured surface, gives you a nice feeling of steady grip. A 5-button ergonomic mouse with adjustable sensitivity / dpi and a removable "surfing support" for the wrist.

### 440-W618 Wow Grip Mouse Deluxe Wired

### 440-W619 Wow Grip Mouse Deluxe Wireless

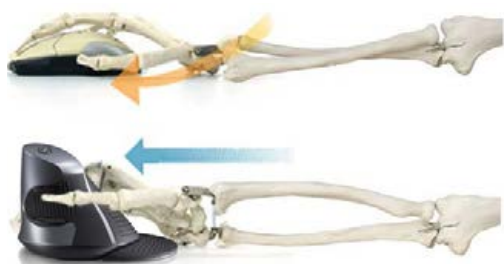

Adjustable dpi 800/1200/1600

Perfect ergonomic

Removable "surfing support"

**RSI is a generic name** for a variety of medical problems associated with the use of computer mice. The traditional computer mouse may cause tension in the muscles and tendons, with subsequent pain and stiffness. This is because the computer mouse design forces the hand to rotate at an unnatural angle, and shoulder muscles to be forced into the static tension for lifting arm.

## Ahaa Palm Keyboard

Ahaa Palm Keyboard lies firmly on the desk with a low design. This creates an ergonomically relaxing work position with the wrist held straight without tension. Ahaa Palm Keyboard has slim keys with X-technique that minimize noise and make typing smooth. The wrist cushion provides comfortable support, which also can be folded on to the keyboard to act as a cover to protect against dirt and dust.

### 441-K205 Ahaa Palm Keyboard

Plug & Play. Including USB-hub with 2 connections.

**Swedish qwerty-layout.**

## Ahaa Grip Mouse

Ahaa Grip Mouse positions your hand like a handshake. This avoids straining the joint of the arm's radius bone, which otherwise is a common cause of discomfort among users of horizontal mice..

### 440-0823 Ahaa Grip Mouse

Plug & Play.

## Ahaa Flexfold Midi Keyboard

Water and dirt proof flexible keyboard that allow for easy cleaning and storage. Flexfold is made of high quality silicon that can be rolled-up and tucked away in a laptop bag, drawer or other small compartment. It can also withstand any type of petroleum based detergents. The keyboard's thin design give the wrist an ergonomically straight and comfortable position.

The keys are comfortably soft with a quick response. Light gray for best vision ergonomic.

### 441-426U Ahaa Flexfold Midi

Incl. USB/PS2 adapter. Dimensions 402x130 mm.

**Swedish qwerty-layout.**

## ResiMouse – Optical Silicone Mouse

A 5-button optical mouse for tough environments. Completely enclosed in high-quality silicone giving unique properties that withstand both water and disinfection solvents. Also resistant to soap solutions, petroleum products and alcohol.

### 440-4M5W Ahaa ResiMouse, white

USB-connection

## Relaxing arm support

### 459-3015 Handy DUO Combi arm support

For use with both keyboard and mouse. Also fits concave shaped desktops, and may be positioned diagonally at 90 degree corners. A soft relaxing support in comfortable lycra. Colour: Black. Dimensions: width 680-820 mm, depth 240 mm.

### 459-5015 Handy Asymmetric

The shape of Handy Asymmetric positions you at a naturally central point in front of the keyboard. Practical, extra large support for the hand is particularly important for frequent keyboard and mouse usage. Dimensions: width 660, depth 210 mm. Colour: Black lycra.

### 459-4020 Handy Combi arm support

For use with both keyboard and mouse. Also fits concave shaped desktops, and may be positioned diagonally at 90 degree corners. Colour: Black lycra. Dimensions: width 670 mm, depth 230 mm.

459-3020 **Colour:** Black leatherette, otherwise as above.

### 459-4024 Handy Mouse arm support

The wrist is held comfortably and without tension while working with your computer mouse. Colour: Black lycra. Dimensions: width 190 mm, depth 225 mm.

459-4020

459-4024

## Keyboard Extension

MoreSpace is a stable keyboard drawer on a glider for assembly under the desktop, creating free workspace. A practical and often a natural choice for smaller worktables and customer counters. The keyboard tray is adjustable in height and angle for the absolutely best work position and has an integrated restful wrist support and mouse board to the right and left sides.

450-KA10D **MoreSpace Keyboard & Mouse Board, incl. rail**

Jockey Comfort with a softly padded ergo seat gives sitting ergonomics above the usual. Jockey "tricks" your body into believing that it is standing. This gives the hip an open sit-angle which allows a back posture with a retained inward curve of the lower back. Increased blood circulation is also achieved compared with the traditional sitting position since the pressure against the back of the knees and underside of the thighs is eliminated.

475-7246 **Jockey Comfort**, black\*

475-7669 **Jockey Comfort**, blue\*

475-0001 **Accessory**, foot ring

Jockey is designed for today's modern working environment where movement and diversity are natural.

## Back Support

McKenzie Back Support is a practical cushion that gives comfortable lower back support. Height adjustable and easy to attach at work or in the car. Made of fire resistant cold foam, with detachable cotton fabric.

476-0027 **McKenzie back support**

Comes with Quick-lock and zipper.

642-9520 **Basic Flex**

Adjustable with the feet and a unique automatic height adjustment. Width 420 mm, depth 315 mm, height 80-290 mm.

A good foot rest must support the feet in a natural position. With the right support and a flexible working position you avoid the front edge of the seat to put pressure on your thighs.

642-3121 **Footmaster**

Stable foot plate. Adjustable with the feet. Width 475 mm, depth 300 mm, height 50-90 mm.

## Orderliness

Ready frees workspace with at-hand vicinity on the work desk. Includes a stable Toolbar guiderail with a complete set of Document shelf C4, Pen holder and Magnet board. Dimensions: Height 260 mm, total rail width, 650/724 mm. Bracket for desktop, max 25 mm.

435-8169 **Ready At-hand storage**, Al/silver

## Pull file Expansion for cabinet

Pull file expander with ball-bearing guide rails are both natural and practical designs which allow the largest possible overview and accessibility to suspended file folders. Detachable file holders with a locking device in a table expansion for stable positioning. File expander fits most cabinet spaces. Mappi file expansion fits into cabinet spaces from 400 mm and wider.

435-4491 **Mappi File Expansion**, silver  
435-4495 **Mappi File Expansion**, white

### Accessory

435-4492 **Mappi Cradle**, silver  
extra wide, 470 mm

## Document & Binder Holder

A perfect aid for those who work daily with paper documents and binders.

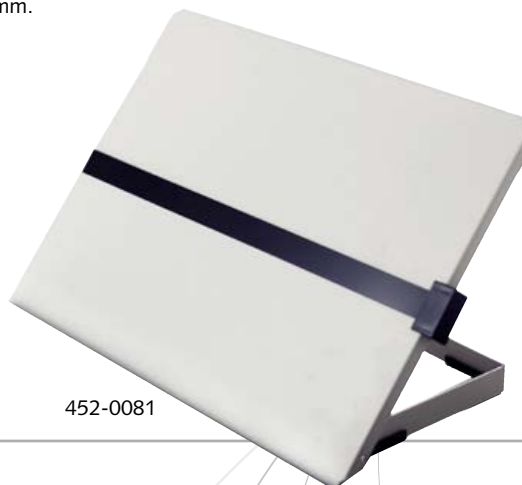

### 452-0085 **Binder Holder Euro**, Off-white

Has a recess for the prominent back of binders which allows the binder to always lay flat when open. Very stable and variably angled. Width 370 mm, height 255 mm. Delivered without magnetic ruler.

### 452-1062 **Magnetic ruler Euro-Series**

### 452-0081 **EuroCept**, Off-white, incl. magnetic ruler

A robust and detached construction for placing directly on the surface of the desk. Variably adjustable to the desired work angle. Width 375 mm, height 265 mm.

452-0085

452-0081

## Pen- & Gadget Box

An elegant and rotatable local storage of pens, paper clips and other "everyday" office accessories, create free workspace on desk top. Store and Boxy "pen trays" have built-in lock-brake in the closed position and a smooth rotating.

### Boxy

Provides storage space for almost anything.

435-4487

**Boxy**, black, 370 x 250 mm

435-4488

**Boxy**, white, 370 x 250 mm

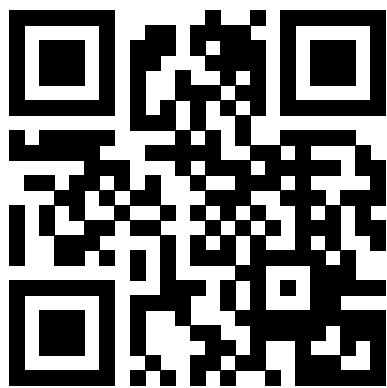

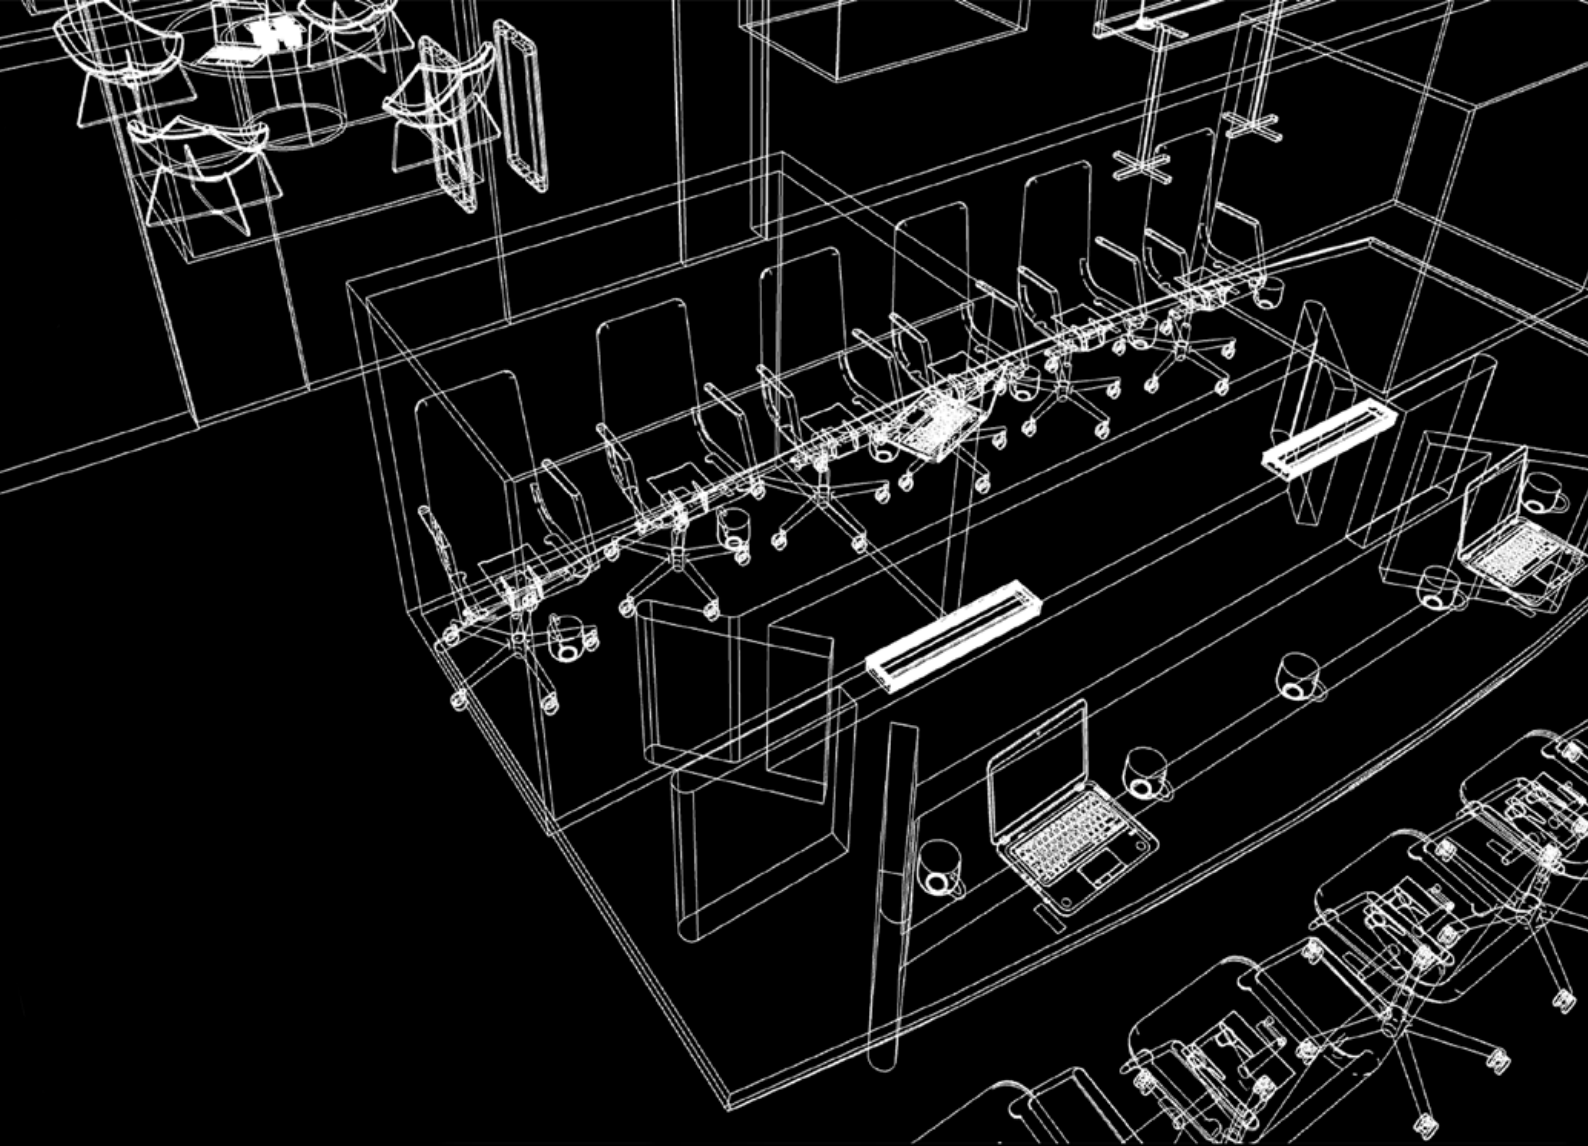

### Store

En självklar succé med integrerad tejpållare.

435-4490

**Store**, silver, Ø 345 mm
